Subject: HB 6355 An Act Concerning Risk Protection Orders or Warrants

To Whom it may concern,

I write this testimony in opposition to this bill.

Our current system of risk warrants already infringes too far on the rights of law abiding gun owners. While I also disagree with that law, it is apparently meeting the needs of Connecticut residents as is.

This bill sets a precedent for the use of harsh measures against individuals not because they are alleged to have committed any crime, but because somebody believes or feels they might, someday, commit one.
